Naval Schedule

By JOHN T. LAMBERT

(By Universal Service)  
WASHINGTON, April 14.—De-  
spite the demands of Pacificists,  
congress is determined to build a  
navy capable of defending the  
United States from any and all  
possible foreign foes, Senator  
Frederick Hale of Maine, chair-  
man of the senate naval affairs  
committee, declared after a con-  
ference with President Coolidge  
at the White House today.

If the three-power naval parity  
called by President Coolidge is a  
failure, the next congress cer-  
tainly will authorize at least ten  
modern, fast cruisers to supple-  
ment Uncle Sam's naval forces,  
Hale declared.

That the conference will be a  
" flop" and that congress, there-  
fore, will find itself forced to take  
such action was predicted by Repre-  
sentative Thomas S. Butler, veter-  
an chairman of the house naval  
affairs committee, who preceded  
Hale to the White House.

"There is no prospect of a suc-

## "OH, BUT I SLEEP WELL," HE REMARKED

The building burglar has  
apparently completed the erec-  
tion of his new home, for which  
no permit was granted by Build-  
ing Inspector A. J. Hurley. He  
turned last night to the task of  
outfitting the palatial mansion  
with minor household effects—in  
fact stepped so far according to  
local authorities, as to steal  
2 sheets, 2 blankets, a com-  
forter, and pillow-slips from  
Louis Regazzini, of 1702 Mac-  
donald avenue.

Regazzini reported to the po-  
lice that he rented the sup-  
posed "uliding burglar" a  
room at 11 o'clock, and that  
shortly afterward the man  
disappeared, taking with him  
the aforesaid bed clothing.

Laths, fence, trees, shubs,  
cement, tarpaulin, and even  
pat ar are now a part of the  
"house by the side of the  
road" that the building burg-  
lar is building to "distress his

## Out Come The Bathing Suits! Natatorium To Open TODAY

Municipal Bathhouse Is  
Reported In Better  
State Than Before

With its great tank in even  
better condition than when it was  
first opened in March, 1926, the  
Richmond Municipal Natatorium  
will launch its second year this  
afternoon. A capacity crowd of  
swimmers, who have been champ-  
ing with impatience during the  
winter months while the tank  
was closed, is expected to be on  
hand at the opening.

The water began pouring into  
the pool Wednesday, and passing  
through the filtering plant to be  
cleaned and treated, as well as  
warned to assure the comfort of  
the swimmers. All of the machin-  
ery in the great plant has been  
tested and found in good running  
order.

The improvements on the nat-  
atorium include the addition of  
50 dressing rooms on the woman's  
side, installation of a dozen spe-  
cial ventilating apertures, com-  
plete paint throughout, replace-  
ment of wooden stairs between  
the dressing rooms and a pool with  
concrete steps, installation of a  
moisture-proof case for the big  
clock, complete repair and reno-  
vation of the machinery.

Measures were taken to pre-  
vent rust from the salt moisture-  
laden air throughout. A sealing  
and filler treatment has been  
given the thousands of feet of  
metal framework, after which two  
coats of aluminum paint were ap-  
plied. All other metal work in the  
building, including door hangings,  
clothing hooks, locks and metal  
of every sort, was removed and  
sent to the factory for adylite  
plating.

The natatorium is one of the  
most popular resorts in the bay  
region, and City Manager James  
A. McVittie anticipates an even  
more profitable season than last  
year, where receipts from the pool  
totaled more than \$42,000.

## U. S. AIRMEN ADD LAURELS TO AMERICAN AIR HISTORY

Birdmen Maintain Flight  
For 51 Hours, And  
Eleven Minutes

(By Universal Service)  
NEW YORK, April 14.—Ameri-  
can endurance and mechanism  
set a new world's airplane record  
today when Clarence Chamberlin  
and Bert Acosta came to earth  
after piloting a Bellanca mono-  
plane for 51 hours, 11 minutes and  
25 seconds, at Roosevelt field.  
They had beaten by six hours  
the French record set by Drouhin  
and Landry, who remained in the  
air 45 hours, 11 minutes and 59  
seconds, in a Farman biplane.

After writing history in the sky  
the two aviators landed amid the  
observers of a large crowd that had  
assembled at the field. They fin-  
ished their flight at 12:42 this  
afternoon. They had taken off  
at 9:30 o'clock Tuesday morning.  
Their flight demonstrated the  
feasibility of a non-stop flight  
from New York to Paris, which  
they contemplate taking in about  
three weeks.

### MELLON'S KNOCK-OUT

Secretary Mellon in a letter to President John Grier Hibben, of Princeton, delivers a stunning blow to all American academic procancellations, forcibly rebuking these cloistered gentry for interfering with the government's fixed policy with reference to war debts.

The secretary is measuring up to the proudest traditions of his great office. He is sure of his ground. He knows whereof he speaks. He is a man of practical affairs—a business man and he stands for America and American interests first, last and all the time.

University professors, in advocating debt revision, are engaged in hurtful interference with the government administration. These revision pleas, as Secretary Mellon advisedly says, incite foreign opposition and delay in the matter of repayment of those obligations and the activity of American college men in this respect is in direct defiance of the wish and the will of the American people.

Secretary Mellon's arguments in favor of the government policy as applied to debt funding are based upon unanswerable computations resulting from conditions during the war and after the war. He does not ask these university statesmen to take anything for granted. He does warn them that altruistic sentimentalism has nothing whatever to do with the hard facts of economic law or with the inviolate principles of justice, equality and honesty as these qualities affect relationship between nations.—*Cincinnati Enquirer*.

### ONE IS APLENTY

Two Irishmen, one accompanied by his wife met on the street. Said Pat to Mike: "Let me present my wife to ye."

"No thank ye," replied Mike, "O' got one of me own."—*Pathfinder*.

### BRINGING HOME THE TRUTH

### Men Who Made the World

RICHARD ORDERED THE BOATS CLOSE TO THE SHORE. THEN, WITH HIS FAMOUS BATTLE AXE IN HIS RIGHT HAND, HE LEAPED INTO THE WATER, CALLING UPON THE OTHERS TO FOLLOW. THEY DID. A TERRIBLE COMBAT FOLLOWED WITH THE SARACENS ON THE BEACH. RICHARD WAS EVERYWHERE WITH HIS DREADED WEAPON. SO FIERCE, RECKLESS AND RESOLUTE WAS HE THAT HIS HANDFUL OF FOLLOWERS WERE INSPIRED TO GREAT DEEDS. THE RANKS OF THE ENEMY WERE BROKEN AND THEY FLED. THIS WAS A HEROIC ACHIEVEMENT. EVEN FOR SO GREAT A WARRIOR AS RICHARD. THE CRUSADERS PURSUED THEIR ENEMY. THE OUTCOME OF THE BATTLE WAS SO SURPRISING THAT THE SOLDIERS ON GUARD AT THE GATES OF THE CITY WERE CAUGHT UNAWARES. OVERWHELMED, POURING IN THROUGH THE GATES. RICHARD CLOSED THEM BEHIND HIS FORCES. THUS DIVIDING THE FORCES OF THE SARACENS WITHIN FROM THOSE WITHOUT. EVERYWHERE THE CONFLICT RAGED. WHEN IT ENDED, JAFFA WAS RE-TAKEN.

### MORBID EFFECT OF DOCTOR BOOK

An Oklahoma correspondent writes:

Dear Sir—Believing I am afflicted with a bad disease syphilis I thought I would ask a little information of you. How I contracted the disease I don't know, but I have not felt well for a few years and having read a neighbor's doctor book I feel sure I have the catarrh of that disease, and also the rheumatism in my joints. Now in the book it says I went to a Dr. A. .... here but he said he didn't think I had the disease. But I know I have all the symptoms like it says in the doctor book and I do believe if I knew what to get I could doctor myself.

R.F.M.  
This is the reason why I usually refuse to send correspondents "leaflets," "pamphlets," "booklets" and the like about disease conditions. Indeed, I take care never to promise to send such a thing, though I am glad to give information or advice about hygiene or health in many cases where the correspondent shows me he should have it. Personal health service, I call this. It is very different from the distribution of medical information or the peddling of doctor book stuff.

There is a place and a real need in the home for a reliable manual or guide for first aid treatment and the home management of minor ills. There is no such manual or guide published, however. The publishers do not recognize that such a book would have a wide demand. The doctors who might write such a book do not care to enter the publishing business. So there is no present prospect that we shall have such a book, though I think most good doctors and health authorities agree that such a book is needed. There are many excellent books dealing with various aspects of hygiene and health and a few dealing with disease from the viewpoint of the patient. I like to recommend these here and by mail, when I know about them. But each and all of the pretentious "doctor books" which purport to give the purchaser inside knowledge or knowledge of his insides and especially knowledge of mysterious matters which are ordinarily kept dark, are vicious in effect, in my judgment, and I believe it would be better for the purchaser's health if he would default on the payments or if he would use the book for kindling fires. A considerable number of the alleged doctor books which are sold for a nominal sum or given away are intended to boost some quack or nostrum business, and in that they are a huge success, though the poor gullible woman—usually it is a woman—who takes these fake "hygiene" books seriously is to be pitied, for she has no way to sort out the truths which are shrewdly interspersed in the humbug of such books.

The Oklahoma correspondent probably has nothing like syphilis, as the honest Dr. .... assured her, but she has something rather worse, I fear, namely, a vicious "doctor book."

### The Toldin Ration

Some of our friends have discarded iodized salt, having heard that its use may cause horrid effects. Before we throw out our stock we want to have Dr. Brady's opinion. We have been using it exclusively for two years and we fancy it has rather bettered our general health. Mrs. S.G.A.

Answer—We have been using it in our household for several years, to the exclusion of plain salt, and some of us like to take a nip of medicinal iodine besides, now and then. The rumor that there is any possible harm in the use of iodized salt instead of plain salt is inspired, I think, by the manufacturers of certain expensive proprietary iodine compounds, and I regret to note that some medical men lend themselves to this trickery.

### The Hairy Mole

Is it harmful to apply a depilatory paste to a mole for the purpose of removing the heavy hairs which grow in it? Is it dangerous to pull out such hairs with tweezers? I have heard it may cause cancer. The mole is about the size of a pea, on my cheek. M.H.

Answer—Of the two methods probably epilation with the tweezers is less irritating. Why not have the hairs destroyed with electrolysis? Any prolonged or frequent irritation may excite cancer development in the site of a mole. Why not have the mole surgically removed?

### Weight, Weight

Please tell me how much a girl 5 feet 4 inches, 20 years of age should weigh. A.M.  
I am 5 feet 6 inches tall and weigh 136 pounds. Please tell me how much overweight I am and what my diet should consist of. I am 19 years of age and in perfect health. G.L.

Answer—A. M. should weigh 130 pounds. G.L. weighs just enough. Her diet should consist of bread 'n' butter, meat and 'taters, doughnuts, apples, cheese, sugar and spice and everything nice. Some Twenty Pounds for a Change  
I contemplate having some teeth pulled, but as I am in the change of life I wonder. .... Mrs. B.J.

### KING RICHARD I.

By Dr. Elliot Shoring, The Noted Historian

GREAT AS WAS RICHARD'S VICTORY, IT WAS NOT CONCLUSIVE. VAST FORCES OF THE SARACENS STILL SURROUNDED JAFFA ON THE PLAIN. THE FOLLOWING MORNING, CAME THE CRUCIAL FIGHT. THE TROOPS WHICH HAD MOVED OVERLAND ATTACKED THE SARACENS ON THE SIDE. RICHARD AND HIS FORCES, ISSUING FROM THE GATES, ASSAULTED THEM FROM THE OTHER. IT WAS A DECISIVE BATTLE. THE CRUSADERS MUST WIN OR DIE. THEY FOUGHT WITH DESPERATION BORN OF DESPAIR. THEIR FURY KNEW NO BOUNDS; THEIR VALOR WAS SUPERB. THEIR STRENGTH IN THIS FATEFUL HOUR WAS PRODIGIOUS. THE SARACENS WERE DEFEATED.

It was in this battle that an instance of the chivalry famed in song and story, occurred. SALADIN, WATCHING THE BATTLE FROM AN EMINENCE, SAW RICHARD FIGHTING ON FOOT, HIS FAVORITE HORSE, HAVING BEEN KILLED UNDER HIM THAT MORNING. UNDER A FLAG OF TRUCE HE SENT TO RICHARD A SUPERB ANIMAL, WITH HIS COMPLIMENTS, AND RICHARD USED THE HORSE DURING THE REMAINDER OF THE BATTLE.

## YOUR BOY AND YOUR GIRL

By ARTHUR DEAN, SC. D.  
The Parent Counsellor

Dr. Dean will answer all signed letters pertaining to parents' problems with their boys and girls. Writers' names are never printed. Only questions of general interest answered in this column, but all letters will be answered by mail if written in ink and a stamp, self-addressed envelope is enclosed. Address Arthur Dean, in care of this paper.

### YOUTH'S CONTRIBUTION DAY

She signs her full name and adds, as a pen name, "One Who Wants to Do the Right Thing."

Furthermore she writes: "Mother said she would like to know your opinion and also that of both younger and older people. Please do this for us." Is it harmful and improper, or otherwise, for a girl to correspond with young men whom she would like to have as friends? What do you young men think of girls who do this? Was her mother right in stating: "In my day if a fellow wrote a girl and received an answer it would indicate that she would like to be serious with him? If right then is she right now?"

I have met a very nice young man who, after he had become more acquainted with me, treated me to several rides. I enjoyed his company for he was a good companion and always a gentleman. Since then I have had letters from him and naturally I wanted to answer them. I did answer two, but mother found it out and she told me that I must have correspondence with no fellow unless I am serious with him.

"How do you suppose he will feel if I do not answer his letters? Will he want to see me if he thinks that I do not care enough about him to reply to this letter? I want him to come, and mother says she would like to meet him, but I must not write. She did not object to my going out with him."

"I do not consider myself much of a 'kid' any longer. I am going to college and over 18. I know my own mind when it comes to choosing young men whom I should like to have as friends."

"Mother argues that there are too many disappointments in love affairs, just from correspondence, for the girl keeps making him feel that she cares for him when she really does not, or vice versa. I can see no harm in writing to him or to any other young man whose acquaintance I have made, just so long as they are nice, and just so long as the things we write are just friendly."

"I would never resort to secret or underhanded means of any kind. But why would it not be proper for me to correspond with him?"

"Mother cannot understand that times and ways have changed since she was my age. I say that it is more dangerous to go out with a fellow than to write to him—but then—either writing or going out together is harmful if both the girl and the fellow are decent and know how to behave."

"Please tell mother and me and get others, through your column, to tell us their opinions—also the opinions of both young and older people."

### Husband and Wife

"Now, where's that do-one cobble stone?"

My husband always imagines something wrong with his bed and raises the mattress here and there as his fancy dictates.—E. K. R.

What Does Your Husband Do?

"The Madame," continued Freddy, "even got her carriage boy to try and pump Mrs. Hammond's chauffeur. But she use. He's a foreigner. A Russian or something. And makes believe he can't understand or speak English. He doesn't wait outside, but calls back for the lady at five o'clock. After that time, you know."

Bob was exceedingly interested, to say nothing of mystified, by the details of this furtive Mrs. Hammond's afternoons of play—and by the elaborate precautions taken by the lady to guard her secret.

"But," he thought aloud, "it seems to me that it would be possible to find out the lady's identity if one really wanted to do so. One could trace down the name through the registration of ownership of her car's license number, for instance, in the State Motor Vehicle Bureau."

"Madame Leonine was three jumps ahead of you," declared Arch impressively. "She tried to find out about you. Of course, I'm not supposed to know it. But Malsie's tongue was a bit too loose one afternoon, as the result of a hang-over, and she blabbed it to me while we were dancing. All that the Madame found out for her trouble was that the car is registered in the name of the New York agency of the Italian automobile company that makes the car. She hires it from them. Probably pays a hundred bucks a day for it. And they know her as Mrs. Hammond. If they do know her real name, they're not telling! She's too good a customer. She's rich enough to be able to use that stunt."

"Couldn't Madame Leonine have her 'trashed'?" asked Bob. His engineering mind, used to boring to the bottom of things, was unsatisfied.

"Yes, she had her followed. To a fine apartment on Park Avenue—leased in the name of Mrs. Hammond, a wealthy widow. Another little trick that's easy if you're the wife of one of the ten richest

### Do the Right Thing.

A new one for me. Never before anything like this. I have never understood that letter writing between young people was dangerous business. I wonder if in the old days the girls did take everything too seriously? Were they always asking themselves: "I wonder if he is serious?" I have a hunch that the older generation of girls spent more time thinking about boys than the present spends in being with boys. How about it, everyone can play ball—new generation and old. The question is: Is it harmful, improper, or otherwise for a girl to correspond with young men whom she would like to have as friends?

### OUR CONVERSATION CORNER

A Drudge Indeed

I do most of the housework and mother doesn't do anything. My mother's sister is here and she doesn't do anything. I milk more than six cows twice a day besides doing the housework and still my aunt and my mother think I don't do enough. What about it? Seventeen.

Answer—It is a rare thing to run across a parent who knows just the right amount of work to give their children. Forty per cent do not give them anything to do, and 30 per cent over work their children—the rest make more or less efficient efforts to gauge work, allot an allowance, and make labor of educational value.

You are a drudge, my dear, and that is all there is to it.

### Stay At Home

I have a very bad impediment in speech. Sometimes I am all right and can speak just like other people, but if a person suddenly asks me a question, I can't get the words out, I get all choked up and can't answer.

I can talk to all the fellows that work beside me, but if the boss comes up to me and talks, I seem to lose control of my speech. What do you think of the school? My friends say it is a fraud.

Answer—You live in a pretty large city. Go to the superintendent of schools office and ask him for the name and address of that teacher in his school system who is an expert on speech defects. Engage her for private lessons. In the end you will find that you have not paid out as much as you would in some school which promises much. Meanwhile you can earn money, live at home, and not have to pay out board, room, and tuition in a strange city. (Copyright, John F. Dille Co.)

## New Dinner Frocks For Summer Evenings Feature The Youthful Bertha Mode

DOROTHY SEBASTIAN

GERTRUDE OLMSTED

JOAN CRAWFORD

THE Bertha has come back again as a feature of new dress and dinner frocks for summer. The youthful mode of this fashion suits it particularly for the informal summer dinner and dance.

Illustrated here are varied types of dress frocks which feature the graceful, wide Bertha. Gold lace and shell pink velvet combine to make the charming frock worn by Dorothy Sebastian. Metro-Goldwyn-Mayer player, in "The Demi-Brillie," her

next film. The bright bodice of velvet has a deep Bertha of gold lace and the skirt, fashioned in bouffant style, is also of the gold lace.

The Robe de Style influence is seen in the quaint, picturesque gown worn by Gertrude Olmsted. Metro-Goldwyn-Mayer player, in "The English Maid in 'Mr. Wu,'" the long skirt of tulle is fashioned in several tiers and is longer in back than in front. The tight bodice of peach

satin is completely covered with the Bertha of silver lace.

For summer evenings, the informal evening frock of shell pink, studded in rhinestones, which Joan Crawford wears as the heroine of "The Taxi Driver," is very charming. Beautiful and airy, it embodies the delicate breeze of soft summer nights. The deep Bertha on this frock is fashioned to form three-quarter length sleeves in graceful folds.

## SENATE LIMITS BAG LIMIT ON DUCK SHOOT

(By Universal Service)  
SACRAMENTO, April 14.—Senator Sanborn Young's bill, as amended, fixing the hunters bag limit for ducks was passed today by the Senate.

The daily shoot will be 25 ducks. A limit of 35 for any week during the season is put on the sportsmen. In other words if the limit for a single day is obtained, ten more ducks may be shot that week.

This bill in its original form cut the present limit to fifteen and thirty respectively. But under amendment by Senator Young, the new limits for the day and week were adopted by the Senate. "I am going to vote for the bill," observed Senator Victor Canepa of San Francisco, "but I really think it is a joke and cannot be enforced."

The Senate today passed a proposed constitutional amendment which would submit to the voters a proposition to bond the State for \$25,000,000 for elimination of grade crossings. It was offered by Senator Fellom of San Francisco.

The Senate today passed Senator Daniel C. Murphy's bill which provides for escheat to the State, and thence to county school funds of unclaimed rebates on certain public utility rates, where they have been contested and lowered by court decree or compromise. The bill grows out of a recent compromise of San Francisco with the Pacific Gas and Electric Company over gas rates.

It was set forth that a considerable part of the refund will never be repaid to consumers who paid a larger rate than the court awarded, because they cannot be found.

In this compromise, such money will lapse to the company. In the future, under the bill, the rebates unclaimed will be held four years, turned over to the state, which after one year will pay the funds for school purposes into the county where the rates were contested.

## HENRY GRAY IS EXAMINED BY SANITY EXPERTS

(By Universal Service)  
NEW YORK, April 14.—Henry Jud Gray was examined by four alienists today, the forerunner of an expected court battle over his sanity when he goes on trial with Mrs. Ruth Brown Snyder for the murder of Albert Snyder, art editor.

Dr. Thomas S. Cusack, of Kings Park State hospital, and Dr. Siegfried Block, of Greenpoint hospital, examined the corset salesman on behalf of Samuel L. Miller, counsel for Gray.

Representing District Attorney Newsome, who announced he would fight every move to show Gray is insane, were Doctors Sylvester R. Leahy and Stephen Jewett, both of New York State and Bellevue hospital.

The examination occurred in a room in the Queens county court house at Long Island City, where the accused couple will go on trial Monday.

It was understood that Gray was questioned at length about his love affairs, his actions while drinking and the effect on him of prohibition liquor. The alienists also probed into the details of his childhood.

Dr. Cusack made it plain that he will withdraw from the case "if I don't find what I expect." Dr. Cusack added that he has a theory concerning the effect of prohibition liquor on persons who are "influenced by taking small quantities, and that he believes this theory is applicable in Gray's case. He did not explain what his theory is.

## NO SLACKERS IN PORTO RICO SAYS SOLON

(By Universal Service)  
WASHINGTON, April 14.—Half-hearted Americans who decry their government might take a lesson in patriotism from the people of Porto Rico and the Virgin Islands. President Coolidge was told today by Representative Edgar H. Kiehn of Pennsylvania, chairman of the house committee on insular affairs.

Kiehn, just back from a Central American trip, said: "You can find more anti-Americanism in New York than in our insular possessions."

"We had granted citizenship to the people of the Virgin Islands at the last congress and the people could not have greeted us better if we had granted them salvation. They cheered the United States and demonstrated their loyalty at every opportunity."

"I saw no evidence of the anti-Americanism in Porto Rico that has been reported to President Coolidge by other visitors. The people of Porto Rico would like to elect their own governor. Government is criticized everywhere but one found less of it there than in this country."

"I marveled at the progress which Porto Rico has made. She has balanced her budget and will have a surplus of \$500,000 this year to pay against her debt. She has done splendidly with public improvements and has made great progress in education, even though there are 30,000 children without education because of lack of school buildings. Her people are raising splendid crops."

"Governor Towner is in ill health, in years and has been in ill health, but he certainly has cemented a friendly regard of the Porto Ricans for the United States."

SUSANVILLE—New filling station being erected at corner of Main and Rook streets.

Attached to one mission all of those years, and living each year in more strictly Chinese fashion, Father Colon, dressed in Chinese clothes, was an object of curiosity.

## Huge Growth Is Seen In J. C. Penney Stores

No. 1—J. C. Penney, who founded the J. C. Penney Co., in Kemmerer, Wyo., 25 years ago. No. 2—The original J. C. Penney Store which Mr. Penney started with a personal investment of \$500. No. 3—The J. C. Penney Co. Building, Executive and Buying Headquarters in New York City. This entire building is occupied by its offices and warehouse facilities. No. 4—Store No. 500, opened in Mr. Penney's home town at Hamilton, Missouri—a typical J. C. Penney Co. Store of today. There are 773 J. C. Penney Co. Stores now in operation.

## SILVER JUBILEE OF PENNEY CO. IS OBSERVED

The \$500 original investment of J. C. Penney, founder of the J. C. Penney stores, has grown to over \$30,000,000 of invested capital. This remarkable increase is attributed by Penney to the "moral fibre" which pervades the system of department stores bearing his name, and which now covers the entire country.

Penney has more than 1000 partners each of whom has started in exactly the same manner as he started with the same future ahead and the same factors to contend with and to turn into personal success.

The Penney organization is now celebrating its 25th anniversary. When asked to comment on the occasion, Penney said: "Look at Edison, Ford, Rockefeller. Study the history of the senior Morgan." They are examples of the will to work once a sound basis of business morals has been established.

He might well have said: "Look at the men in the Penney organization, more than two score of whom have grown from clerks to an affluence which places their present financial rating in excess of a half million of dollars."

The only way in which ownership in the J. C. Penney company can be acquired is through work. There is no limit to the amount that any working individual can acquire. It has been made entirely a matter of personal application.

Today, in the 773 stores which operate under the Penney name and in the home organization, the 1000 partners are doing exactly what J. C. Penney did and still does and each one has the same potential success ahead of him that the founder had.

Definite policies have been established and adhered to nationally. These policies have been the outgrowth of the opinions and experiences of the steadily increasing group of store managers. There are never any purchases of "seconds" or of inferior merchandise. When goods are marked down they are repurchased at what has been determined to be their lowest price based on the market of the day.

Low prices have been helped by quantity purchases. They have been helped by the ability to ship in carload lots and to break up these carload shipments at points convenient to local stores. They have been helped by shipments by boat of 1926 thousands of dollars were saved to customers of the Penney stores, especially on the Pacific coast, through savings in freight rates made by shipping through the Panama canal.

The savings made by quantity buying are exemplified by a recent order for 100,000 sets of table silver to be used in connection with the silver anniversary activities of the organization. This was the largest individual order ever placed for table silver. This set ordinary retail for \$16. It is being sold by the Penney stores for \$5.90.

A single order for women's silk hosiery, recently placed, totalled \$4,000,000, the largest individual hosiery order ever placed. Other items are bought in the same manner and the manufacturers are allowed to ship their products at times when heavy volume business means much to them in savings in overhead. In this manner, the Penney stores are able to buy at a great saving. This method of buying helps the manufacturer.

This week there will be more than \$2,500,000 spent by wage earners and their wives in J. C. Penney stores. The prices they will pay represent savings to them in excess of \$125,000.

These stores will bring new buyers into the places where they are located. The managers will start along the road to partnership with J. C. Penney and new economies will be brought about to add to the purchasing of the personal dollar of the great American family.

The Penney store is a factor in American domestic economy. In its 25th year it stands as the greatest co-partnership organization in the world and with a record for increase of original capital which is without equal.

Now J. C. Penney is devoting a portion of his interest to a similar plan for agriculture, a co-operative partnership arrangement in which the grower of farm products may travel along lines traveled by those who have become managers in the Penney stores.

He is planning to educate the farmer in diversified crop raising, in better stock breeding, co-operative marketing and to spread the doctrines of more profitable farming methods throughout the country.

## 'THE OVERLAND STAGE' COMES TO CALIFORNIA

One of the screen's great gifts to the public is the history lessons contained in such pictures as "The Overland Stage," the Ken Maynard starring feature for First National, coming today to the California theatre.

This impressive production shows one of the really great events in the conquest of America; the linking of the stage-coach lines from east to west. The celebration of this historic event was recently reproduced on a massive scale at the site of its occurrence, Deadwood, S. D., and the Maynard company, directed by Albert Rogell, journeyed there to film it as part of their epic.

Although this picture is the first to deal in any large way with the epic of the transcontinental stagecoach, the picture which deals romantically with historical events is frequently seen, and, when well done, is always among the most popular screen offerings. It happens that one of Ken Maynard's first screen parts was that of Paul Revere, in a great Revolutionary war film. This way of bringing historical events and personages into view, and injecting into them the very breath of life is destined to be the educational method of the future, according to the psychological experts.

"The Overland Stage," which is destined to give great impetus to this method of teaching history of the early west, is from an original story by Marion Jackson and is interpreted by a brilliant cast including Kathleen Collins, Tom Santschi, Sheldon Lewis, Dot Farley, Florence Turner, Jay Hunt, Wm. Malan, Paul Hurst, and Fred Burns.

Other features include the seventh episode of "The Collegians," a Ko-Ko cartoon, and the latest International News reel.

## EX-KAISER IS RICHEST MAN IN GERMANY

(By Universal Service)  
BERLIN, April 14.—The former kaiser is one of the biggest winners in the unprecedented boom in German stock exchanges which set in about a year and a half ago, and during which most German stocks tripled or quadrupled in value.

The former kaiser's private fortune, which was estimated at 50,000,000 marks in 1914, was invested to a large extent in sound German stocks, especially electric, shipping, dye, rail and bank stocks, which have been the greatest beneficiaries from the boom that followed the inflation depression. This fortune is entirely aside from the estates and castles which the former ruler won in the dispute with Prussia following the defeat of the constitution referendum.

The former kaiser is now probably one of the richest men in Germany.

## Mrs. Coolidge Is Given Flowers Of California

WASHINGTON, April 14.—Native California flowers gathered from the hills near San Francisco by the children of the Salvation Army home at Lytton Springs were today presented to Mrs. Coolidge.

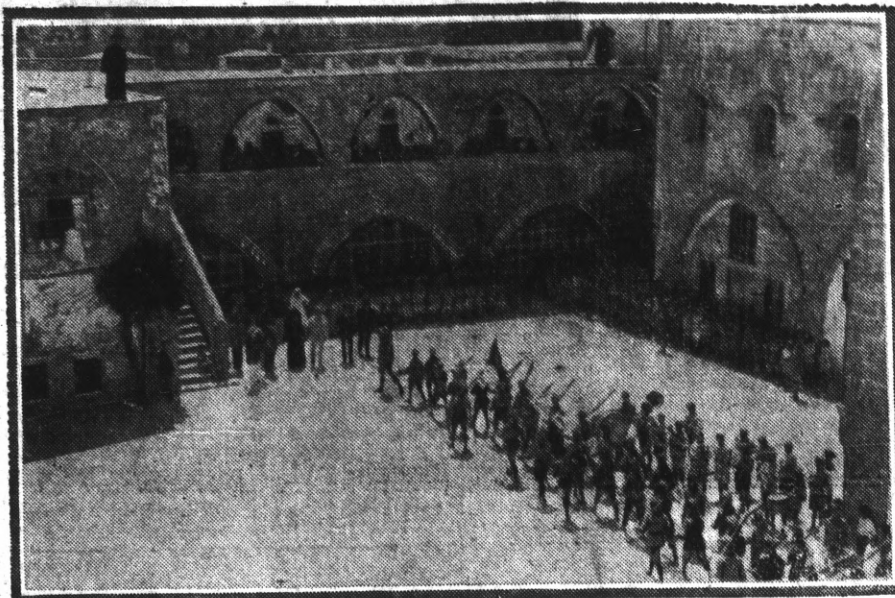

Brought here by airplane, they were given to Mrs. Coolidge at the White House by Keitha Holz and Robert Rore, Jr., children of local Salvation Army officials. Mrs. Coolidge was so pleased that she raised the children in her arms, kissed them and said, "Tell your little California friends that I wish they all could be here for the Easter egg-rolling on the White House lawn next Monday."

With the flowers was a letter signed by 200 children of the California home, saying, "Dear Mrs. Coolidge: we are sending you these flowers because we love you."

Mayor James Rolph of San Francisco also sent the following letter to Mrs. Coolidge: "It is with pleasure that I learn that the children of the Salvation Army at Lytton Springs are picking some of California's wonderful flowers to send to you as an expression of their love of yourself and the President, and loyalty to their country. San Francisco is proud of this children's home, which has done and is still doing such splendid service in caring for the little ones who would indeed be unfortunate were there no such place."

The educational committee of the real estate class have postponed beginning of instructions to April 25. Classes will be held in the chamber of commerce rooms. J. B. Corey, of the Schapiro Realty company, will be the class leader, assisted by Lloyd T. Bolt, of the Paulsen Realty service.

## U.S. AIRMEN ADD LAURELS TO AMERICAN AIR HISTORY

(Continued from Page 1)

Had they flown in a straight line instead of circling around over the field they would have reached Paris and would have gone beyond, possibly as far as Constantinople.

"We knew you would do it," exclaimed the wives of the two aviators as they climbed into the seats of the plane and put their arms around their husbands' necks and kissed them. They were the first to greet the record breakers.

"Give me a cigarette," were Acosta's first words after he had kissed his wife.

Some one in the wildly cheering crowd passed him one. "I want a drink," were Chamberlin's first words. "We ran out of drinking water yesterday morning."

As they climbed down from their plane the enthusiastic crowd surged closer, everyone apparently eager to slap the bird men on the back.

The throng, estimated at 2000 persons, became so unruly that police reserves were called. The patrolmen formed a circle around the aviators as Mrs. Sidney Hillman presented each with a basket of carnations, which were passed to their wives.

Today's feat is one of the victories of peace for it brought back to America the record that had been established by Lieutenants Kelly and Macready at Dayton, Ohio, in April, 1923, when they remained in the air 36 hours and four minutes. This was broken by the Frenchmen in August, 1925.

The first great cheer of enthusiasm went up from the watchers at 6:43 o'clock this morning when the aviators broke the French record and started to hang up a new mark for future contestants to shoot at.

They continued their flight for six hours more, though at 11 o'clock it was apparent that they were nearing the end as they had only 10 gallons of gasoline left. They kept on for another hour and then made a perfect landing.

WASHINGTON, April 14.—Here in the "Federal City," on May 2, another American victory in the conquest of the air will be given its own enduring place in history.

At Bowling field in the late afternoon of that day if affairs of state will permit, the president of the United States will welcome home the U. S. army pan-American flight and receive in the field from its leaders the report of its good will mission.

As witnesses to this ceremony and as a committee of reception the members of the cabinet and diplomatic corps and the delegates to the pan-American conference on aviation, which will begin its session that day, will make up the distinguished company that will follow the president to Bowling field.

Details of the welcome home program have almost been completed. Official announcement may be expected within a short time.

## CARROLL STILL SERIOUSLY ILL

(By Universal Service)

GREENVILLE, C. C., April 14.

"Am I in the penitentiary?" That question was asked by Earl Carroll at 11:30 last night—the first words he has spoken since he lapsed into a state of coma on the Atlanta prison bound train at 8 o'clock Wednesday morning.

After nearly 40 hours of "mystery sleep" the Broadway theatrical producer regained consciousness for a few fleeting moments while only his nurse was in the room.

His brother, Norman, had just stepped out of the room when he opened his eyes for the first time.

"No," was the reply of the nurse, to the producer's question, "Do you think you would be in the penitentiary and have a nurse?"

"Are they coming for me?" was the next question.

"No," was the assuring reply. Carroll seemed better satisfied with this and with a wan smile extended his arm and asked the nurse to hold his hand.

She took hold of it as he requested and he slipped back into the mystery sleep.

(By Universal Service)  
WASHINGTON, April 14.—Only seriously impaired health will win freedom for Earl Carroll, New York theatrical producer, now ill as a federal prisoner at Greenville, S. C. It was made plain at the department of justice today.

Carroll's formal application for a pardon, submitted by his representatives and personally urged by him 24 hours before he started for Atlanta penitentiary, has been turned down by Attorney-General Sargent.

This means that Carroll must stay in the Atlanta penitentiary.

## "CALL FOR MR. BINGO"

serve his sentence for perjury, unless his sudden illness should continue long enough to raise the issue of his release in an altogether new form.

The department is keeping in touch with Carroll's condition through United States Marshal Hecht of New York and his representatives, who were taking Carroll to Atlanta when he sank into a coma.

Sargent said Carroll was being afforded good medical care by Marshal Hecht. He added that he had sent no other representative of the department to Greenville.

Speaking of the application, without reference to Carroll's subsequent illness, Sargent said:

"Nothing will be done now. Why should we step in and interfere with the orderly processes of the courts' perjury is a serious offense."

GREENVILLE, April 14.—Mrs. Earl Carroll was stricken suddenly in the city hospital late today and tonight is suffering from a severe attack of bronchitis, which gives indications of being of influenza origin. She had a temperature tonight of 103.50. The wife of Earl Carroll is being cared for in a room close to the one occupied by the producer.

## MYSTERY ENDS IN THEFT OF U. S. PAPERS

(By Universal Service)

WASHINGTON, April 14.—The mystery of the alleged theft of secret documents from the American embassy in Mexico City took a sensational turn today when the state department placed responsibility on the war department.

This was co-incidental with the return to Washington of Lieut. Col. Edward Davis, military attaché at Mexico City, who was recalled to explain the incident.

It was emphasized that Colonel Davis is considered entirely blameless except for the fact that one of his employees is supposed to have rifled the embassy files.

The mystery was intensified, however, when it was learned that Colonel Davis was placed under the strictest orders not to discuss the case. The state department announced that Secretary Kellogg had not discussed the matter with Davis, and did not contemplate so doing. Only the war department is concerned at this time, it was stated.

This seemed to "close the incident" so far as the state department is concerned, but it was learned that the government is really deeply concerned.

This is explained by a report current in diplomatic quarters that Mexico is not quite satisfied with the explanation that the secret documents, which found their way into the hands of President Calles, are forgeries.

It was significantly pointed out that the American embassy in Mexico City has taken no steps to prosecute any one for "stealing" documents from the embassy, or for selling "forged" documents, or obtaining money under false pretenses.

Knitting Mill Looter Given Probation

Wendell Jackson, 21, a former sailor, residing in San Francisco, was given a 2-year probation yesterday, following his plea of guilty to robbing the Princeton Knitting Mills at Richmond on two occasions in January. Superior Judge H. V. Alvarado granted probation following the report of County Probation Officer Dr. Thomas A. Boyer of Richmond.

Jackson admitted stealing \$800 worth of sweaters and enlisting the aid of S. J. Thevin, 20, of San Pablo, in their disposal. Thevin was found guilty of a petty larceny charge and was given a six months' suspended sentence by Justice of the Peace John Roth. A week later he was hauled into court on a reckless driving charge and is now serving a 90-day term in the county jail, with the six months' sentence still pending.

## Minnesota Puts In Bid For White House

(By Universal Service)

WASHINGTON, April 14.—Minnesota today has the call for the summer White House of President and Mrs. Coolidge.

While the President has yet to make a final decision he is known to have shown a growing interest in the magnificent estate of Mrs. Walter Douglas on the shore of Lake Minnetonka, near Minnetonka.

With foreign situations, especially China, uncertain, the President is anxious to stay reasonably close to Washington and not to submit Secretary Kellogg to the hardship of long trips to confer with him.

As President Coolidge transacts a large amount of administrative work at his summer White House, the fact that the twin cities are on the air-mail line is a business convenience which recommends the Minnetonka estate to him.

## SHEPHERD BOXES DRAW WITH RACEHORSE ROBERTS

### MORMON STAR HOLDS ROBERTS EVEN IN DEBUT AT EL CERRITO

Britton And Joe Diamond Steal Show With Fast Preliminary Bout

Eddie Shepherd, of Salt Lake, intermountain light heavyweight champion, made his debut at the El Cerrito fight arena last night by holding "Racehorse" Roberts, a veteran Oakland lightweight, to a draw in the 8-round main go. The Mormon fighter, conceding a 10-pound weight advantage to Roberts, came on fast in the closing rounds to earn a draw for himself. The intermountain title holder, had been touted as possessing a devastating punch, but failed to upset Roberts, one of the toughest trial horses in the bay region.

Bud Fisher, Portland middleweight, was awarded the decision over Gunner Woods, of Oakland, in the 8-round semi-windup. It was the worst bout of the evening. Woods absolutely refusing to make a fight of it.

Joe Viera, of Oakland, a 122-pounder, stopped Salvatore Orta in the fourth round of the 8-round special event.

Mickey Britton of Berkeley and Joe Diamond of Oakland stole the show when they fought a slashing 4-round draw. The diminutive boxers started fast in the opening round and kept mixing it up until the final gong. It was a regular decision. The bout was easily the best on the card.

Albe Berg, San Francisco 115-pounder, knocked out Joe De Maria of Albany, in the second round of the scheduled 4-round preliminary.

The Harry Walsh-Jeff Hague bout, scheduled as the curtain raiser, was called off when Hague was reported sick. The promoters increased the schedule length of the special event so as to give the fans their money's worth.

Billy Brackett, of Oakland, made his first appearance as referee for the El Cerrito club last night, his decisions being fairly well received by the good-sized crowd of "fans" on hand at Joe Rossi's abattoir.

### FIREMEN AND DOUGALL NINE PLAY TIE GAME

A pitcher's battle occurred at the first street ball park when the Richmond Firemen met the Dougall Hardware company in a return game yesterday afternoon. The game of Tuesday went 12 innings, with the Firemen winning by a 3 to 2 score. Yesterday's game was called in the 10th inning with both teams tied, 2 to 2, on account of darkness.

Ernie Paulsen took the mound for the Dougalls with Carl Kamb the Firemen's choice. The Dougalls scored in the first and third innings, while the Firemen tallied in the second and sixth cantos. Both the Firemen runs were unearned.

In the first round Carl Pinto opened the contest for the Dougalls by fanning on four pitched balls. Glum worked Kamb for a free pass. Gualdoni doubled to left, Glum pulling up at third. Williams pounded a single to left, scoring Glum. Gualdoni was held at third. J. Pinto filed out to short. Baldwin fanned.

Gualdoni, first man up for the Dougalls in the third inning, popped to short. J. Pinto singled to center. Pinto was thrown out trying to reach third base on Baldwin's single to right. Baldwin stole third and scored on an overthrow. Myille was out, Davidson to Wright.

The Firemen squeezed one run in the second canto, as a result of Wright's double and Hathaway's single after two were out. In the sixth another tally for the Firemen was registered. Pasas's single and Wright's double did the work.

The game was featured by the sensational pitching of both the pitchers, Kamm fanning 13 and Paulsen whiffing 10 batters. Wright of the Firemen, hit two doubles and one single, out of five trips to the plate.

#### Heart Trouble Marvelously Relieved

While visiting her daughter in Oakland, Mrs. W. H. Morton of Stockton was in such great pain due to Heart Trouble that it affected her hands. She could neither walk nor rest with the slightest effort. All the physicians whom she consulted expressed the opinion that she had not more than ten days to live. She truly seemed to be at the point of death when she took her first package of the Fong Wan Herbs. It was cooked for her at home, and that night she had the first rest after many weeks of terrible suffering. After four weeks of the Fong Wan Herbs treatment, she was able to return to her home in Stockton. From that city she has sent the following testimonial to the Fong Wan Herb Co.

#### Owes Her Life to Fong Wan Herbs

Stockton, Calif., March 21, 1927.  
To the Fong Wan Herb Co.:  
I have been a sufferer with valvular trouble of the heart for some time. I became so ill that my doctors, which were many, gave me but a week or ten days to live. I decided to try the Fong Wan Herb Co., and to the amazement of all who attended me, I was able to walk into their office after taking the Herbs one week. I have now taken them four weeks, and I not only have a good heart, but have also been helped in other ailments.

I cannot speak too highly of the Fong Wan Herbs, as I owe my life to them. I am very grateful to Fong Wan for his kindness.

## KAHN SAID TO FAVOR REVISION OF DAWES PLAN

(By Universal Service)  
BERLIN, April 14.—For several days persistent stories have been appearing on the German Press according to which Otto H. Kahn, American financier, is supposed to have become the champion of a sweeping revision of the Dawes plan. It is alleged he is proposing to impose far reaching additional burdens on Germany.

According to the newspapers the plan proposed is to introduce state monopolies on sugar, tobacco and alcohol, and convert the post office into a private stock company, all of which would then be pawned to the allies as security for the reparations payments.

Both Dawes circles and government officials deny any acknowledgment of such plans and scoff at the possibility, especially since a need for the revision of the Dawes plan has not yet arisen. Some quarters assert that the stories were launched as a part of a new campaign against the Dawes plan with the purpose of scaring the country and furnishing material for new attacks on the plan.

## Jealousy In Europe Makes Larger U. S. Navy Urgent

(Continued from Page 1)  
ed. In 1921, when we had the biggest and best navy in the world and, therefore, something to surrender, the Washington conference was a success. Now that we have nothing to give away, the other sea-powers will yield nothing themselves.

"Some day in the future, possibly the English-speaking nations will have sufficient power and arms limitation upon the world."

Hale said he had discussed "The present condition of the navy" with the President, but was careful to announce that they had not included the cruiser-building program. It was recalled that the last congress authorized three additional cruisers despite the wishes of the President, who had insisted that construction should be withheld pending the outcome of his disarmament overtures abroad.

"England, said Hale, 'has 192,000 tons of cruisers built and 140,000 tons building or authorized. The United States has 75,000 tons and 80,000 additional tons authorized or building."

"Not only are we far behind England, but we are far behind the number of cruisers needed to round out our fleet. We have ten cruisers in service, five building and three authorized, while the naval experts agree that he should have at least twenty-five cruisers to balance the fleet."

"Congress does not want to see our navy decline. Unless some definite limitation is agreed upon at Geneva, I am certain that the temper of Congress will be such as to vote at least ten more cruisers."

The administration, which seems convinced that the general disarmament conference now in progress in Geneva will be futile, is hopeful but none too optimistic that the three-power conclave of the United States, Great Britain and Japan will produce some degree of limitation upon cruisers, destroyers and submarines. The refusal of France to join the parity will jeopardize whatever inclination England had to limit those types of naval armaments, it is believed.

## 4th Century Vase Found Near Athens

(By Universal Service)  
ATHENS, April 13.—A beautiful fourth century vase has been found in excavations on the site of the Royal stables here. The vase was about a foot in diameter, and served as a funeral urn. The exterior of the vessel is well preserved, and shows a design of the man whose ashes are within. The figure is seated, and is accompanied by two women, one of whom offers him his helmet and shield while the other presents his sword and spear. An inscribed stele gives the name of the figure as Hephalaides of Chios.

## SITUATION IS STILL SERIOUS IN CHINA WAR

(By Universal Service)  
LONDON, April 14.—Japanese residents of Peking have requested the Japanese war minister at Tokio to send reinforcements without delay to guard the Japanese concession at Peking, according to a Peking dispatch to the Daily News.

It is reported here that Russian forces are being massed on the Manchurian border and that for this reason Japanese are mobilizing a force to safeguard Japanese interests in that sector.

SHANGHAI, April 14.—The situation is still menacing in China. The Conservative element of the Nationalists seems to be in control, following a series of raids against the extremists, in which many were killed and wounded. At Nationalist headquarters, it was said the drastic treatment of the extremists was necessary for the restoration of peace in Shanghai.

The military situation in the north is known only through the fragmentary reports. It is rumored that Pengpu has been captured by the northerners in their continued advance.

Interest centers on the Cantonese conference, which will be held at Nanking tomorrow. It is possible that a new south China government, controlled by the Conservative wing of the Kuomintang, may be formed.

A bone of contention in the proceedings is the tenor of the answer to be made to the five powers. General Chiang Kai Shek favors a conciliatory reply, while the radicals demand a defiant response.

## Sealy

**TUFTLESS MATTRESS**

REGULAR PRICE  
**\$55.00**

Millions of families throughout the country have found sleeping comfort on a Sealy Mattress that they'd never even dreamed of before. IT'S LIKE SLEEPING ON A GIANT PILLOW. For the Sealy has no tufts! No hard lumps and "ups and downs" to disturb a restful, refreshing sleep.

Only in the Sealy do you get the full buoyancy you should expect in a mattress. The patented air weave process retains all the "live" and elasticity of the virgin, white, long staple cotton—the only kind used in Sealy construction. This same exclusive process is your assurance that your Sealy will always retain its shape. No matter how hard the usage—it can never sag, stretch or lump!

Like Sleeping On A Giant Pillow

A Sealy lasts longer—by years—than an ordinary mattress. Many Seals are still in good condition that were bought 25 or 30 years ago.

The only attention a Sealy ever needs is an occasional sun bath to restore the full "springiness" to the cotton.

Each Sealy comes to you packed in an individual carton. When you buy a Sealy you know its absolutely sanitary. You've always wanted to own a Sealy. During this great national sale the price has been reduced to \$39.50—you pay no more than you would for an ordinary mattress. This event is in effect for only 10 days—from April 15th to April 25th. After that, the Sealy goes back to its regular price of \$55.00.

Place your order for your Sealy Mattress EARLY during this sale and insure prompt delivery.
